

THAMSANQA PROFESSOR DLAMINI

Junior Full-Stack Developer | Python | Django | REST APIs | JavaScript

KwaNdengezi, South Africa | 061 452 5714 / 079 067 8829 | thamidlamini544@gmail.com

GitHub: github.com/thamimkhonza-12 | LinkedIn: linkedin.com/in/thami-dlamini | Portfolio: thamimkhonza-12.github.io/Portfolio/

PROFESSIONAL SUMMARY

Junior Full-Stack Developer with hands-on experience building RESTful APIs, database-backed applications, and responsive web interfaces using Python, Django, Django REST Framework, JavaScript, HTML, CSS, and PostgreSQL. Recently completed ALX backend development training, with a strong foundation in API design, authentication, deployment, and clean application structure. Currently contributing as a contract-based developer for BuildForge/KasiDash. Combines technical growth with more than 10 years of professional experience showing discipline, reliability, customer focus, and problem-solving. Actively seeking a junior full-stack developer role.

TECHNICAL SKILLS

Languages	Python, JavaScript, HTML5, CSS3
Frameworks	Django, Django REST Framework, Node.js, Tailwind CSS
Databases	PostgreSQL, MySQL, SQLite
Tools & Platforms	VS Code, PyCharm, Git, GitHub, Postman, Render, Linux
Core Concepts	RESTful API development, CRUD operations, JWT authentication, MVC architecture, responsive UI, debugging, deployment, version control

PROJECTS

Task Management API

Django, Django REST Framework, PostgreSQL, JWT

- Built a RESTful API for secure user registration, login, task creation, updates, deletion, and retrieval.
- Implemented JWT-based authentication, user authorization, filtering, search, and user-specific data access.
- Tested API endpoints with Postman and followed RESTful principles and clean architecture practices.
- GitHub: github.com/thamimkhonza-12/Alx_BE_Capstone

Community Resource Finder

Django, REST API, PostgreSQL, responsive web application concepts

- Designed an application to help users locate nearby community services such as clinics, shelters, and food banks.
- Built database models, CRUD endpoints, filtering capabilities, and geolocation-based search logic.
- Focused on efficient data retrieval, practical user workflows, and deployment using Render.
- GitHub: github.com/thamimkhonza-12/Comunity_resource_finder

Frontend and JavaScript Projects

JavaScript, HTML5, CSS3

- Created practical browser-based projects including a Kanban Board, Form Validation Library, Dark Mode Toggle, Image Carousel, and CSV Data Parser.
- Applied DOM manipulation, state handling, validation logic, responsive layout, and reusable JavaScript patterns.
- GitHub: github.com/thamimkhonza-12

EDUCATION

ALX Africa (Remote)

Back-End Web Development - Completed March 2026

PC Training & Business College

Certificate in Information Technology - 2007

Rosebank College

Diploma in Information Technology - 2008 to 2010

Kwa Santi Secondary School

Grade 12 - 2006

PROFESSIONAL EXPERIENCE

Developer, Contract Based - BuildForge/KasiDash

Contract Based

- Contribute to development tasks across practical full-stack product work.
- Apply Python, JavaScript, GitHub, and implementation-focused problem-solving to support delivery.
- Work with project requirements, technical improvements, and collaborative development workflows.
- Reference: facebook.com/share/1EbNHvDFwp/

Customer Service - Kempston Truck Hire

Jan 2023 - Present

- Managed time-sensitive delivery operations with high accuracy.
- Maintained operational efficiency and reliability in a fast-paced environment.
- Strengthened problem-solving, communication, and attention to detail.

Driver - Kempston Employment Solutions

Feb 2021 - Jan 2023

- Maintained accurate delivery records and followed strict operational procedures.
- Demonstrated discipline, accountability, consistency, and route planning.

Sales & Stock Assistant - Incheon Korea Motor Spares

Jan 2011 - Apr 2020

- Managed inventory, supported daily sales operations, and maintained accurate stock records.
- Provided customer service, coordinated logistics, and worked with data-focused stock control processes.

ADDITIONAL INFORMATION

- Open to junior full-stack developer roles.
- Actively expanding skills in Node.js, frontend development, and C# (.NET).
- Strong work ethic, fast learner, adaptable, and passionate about building useful applications.
